BuyerSide advises buyers only. It offers its services from A to Z to individuals since 2013 starting with sourcing of opportunities (off-market network), followed with a full analysis of the property (urbanistic, technical, asbestos, etc.), a valuation and negotiation up to final contracts. The professional department (BtoB) has been set up with the arrival of Nicolas Vincent in 2018. Since then, BuyerSide is also advising its professional clients for commercial real estate. BuyerSide has recently advised the Construction Confederation for the acquisition of their new Headquarter in Brussels ($\pm 7.000 \text{ m}^2$).
